

## Treatment for Catarrh S.S. Removes the Cause

ifying the Blood.

Get your blood free from the cause of the catarrh. It is now a prey to the unhealthy state—then the throat, hawking and the mucus in the nostrils, the disagreeable bad breath. It is in the first place, be-impoverished blood was needed. Possibly a slight contact with someone who But the point is—don't Catarrh—it is not neces-remedy S. S. S., discov-ery years ago, tested, true

and tried, is obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If you are a long standing case, be sure to write for free expert medical advice. We will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. We will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment. Address: Medical Director, 439 Swift Labora-tory, Atlanta, Ga.—(Adv.)

## UNCLE SAM WAS BORN OF SOCIAL COMFORT

MIGHTIEST OF ALL NA-TIONAL GODS.

Excerpts From Lecture of Dr. Wm. M. Taylor at Uni-tarian Church.

Rev. William M. Taylor lectured at the Unitarian church Sunday morning on the subject, "The Validity of Worship in the Light of Modern Psychology," taking for his text the statement of Jesus, "Prayer is spirit and they that worship Him must worship in spirit and in truth."

"God is a cultural idea—primitive man had no god. He is the highest value of the evolutionary process, born of the travail of the conjunction of self-consciousness and a new complexity and variety of facts of the cosmic system," said the lecturer. "God is not an anthropomorphic being like George Washington, being of history and of Himself, but He is a reality like Uncle Sam, a spiritual being and a complex of the summation and unification of all the material, organic and social facts and energies of the universe, the embodiment of history and the prophecy of the future. He is psychic spiritual power which controls and directs every individual part."

"Uncle Sam was born of social comfort between the summation of all the ideals of thirteen colonies, and exercising controlling power over every state. He has grown to large proportions and is the ideal of the world—that is, the securing of freedom, liberty and equal rights to all the nations—and is now ready to enter into a larger compact with the gods of all the nations of the earth and form a new complexity, which shall issue a more powerful and dominant god, who will govern the whole world under the insignia, 'Humanity.'"

"No man can grow in isolation. One must augment his powers by integrating his organism as a channel for the expression of the sum of the social consciousness if he would rise above himself. President Wilson is a mighty man, not of and from himself, but because he is able to make himself a channel for the divine power of Uncle Sam, and to give a reinter-pretation of the Declaration of Inde-pendence. He is to Uncle Sam what Jesus was to the social conscious-ness of the Hebrew nation. The world worships him today because he is Uncle Sam'sointed—his chosen one—for the manifestation of his spirit to all humanity, so that peace, justice and good-will may have concrete expression."

"A prayer not in the spirit of the god to whom it is addressed cannot be answered. England and France prayed to Uncle Sam for help in their distress."

**GRANDMOTHER KNEW!**  
There Was Nothing So Good  
for Congestion and Colds  
as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard-plasters gave, without the blister and without the blister. Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Just massage Mustard in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears.

Use Mustard for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chil-blains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size, \$2.50.

**MUSTEROL**  
WILL NOT BLISTER  
(Adv.)

—Center table—Main floor.

**Rupture Kills  
7,000 Annually**

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely talking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment. But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place; therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached. Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Send your name today to PLAPAO CO., Block 249, St. Louis, Mo., for FREE trial Plapao and the information necessary.—(Adv.)

but at first each prayer was prompted by the spirit of self-interest. England desired dominion of the sea, France was longing for Alsace and Lorraine, Uncle Sam could not answer them because they were the expression of another spirit, but when in desperation the allies prayed to Uncle Sam, the principle of equal justice and freedom, he could not help but answer. He sent millions of his angels and provisions and munitions, and the mothers, fathers, wives and sweethearts of America answered.

"Churches with regular stated periods of worship, with songs, music, rituals, liturgies and other performances, as well as to coordinate and integrate the brains and bodies of the participants for action toward progress. We advanced ideals are essential to progress and lift each individual above himself by augmenting his powers. Whether the worship serves as an uplift or a hindrance to growth depends upon whether the ideal is retrospective or prospective—whether it turns back to the past or looks forward to the future. The larger the social compact the larger the conducting capacity for the psychic energy of the community, and the larger the conducting wires furnish this city carry 65,000 volts of current. This moved to 110 volts before it is turned into your houses on small house wire, else the small wires would melt from overcharge."

**TELLS A GLORIOUS INCIDENT**  
Transfusion of Blood Between Men Whose Fathers Fought Each Other.

Capt. A. J. Gahagan, of this city, has received a letter from his friend, Col. Andrew Cowan, of Louisville, giving a copy of a letter received by the latter from a soldier in France, which tells of a touching incident. The Louisville Post printed it, as follows: "New England and North Carolina, once severed in strife, are today one in valor and sacrifice for liberty."

"Capt. W. W. Davies, himself a native of North Carolina, who is serving with the American Red Cross in France, relates an incident that demonstrates this more than words can do."

"Capt. Davies gives this incident in the following letter to Col. Andrew Cowan: 'Oct. 16, 1915. 'My Dear Colonel—A brave old heart like yours doesn't need stories of heroism to help it beat faster and send forth the veins of blood. But I want to tell you of something that I saw today if for nothing else than to break the spell of my emotions and to let the lump that has been in my throat since I witnessed this thing. 'A poor boy from New England has had three major operations in the hospital to save his leg from the terrible effects of the H. E. at the battle of St. Mihiel. He has rallied and is now fighting. He is very, very brave. Once I saw him under a partial operation without anesthetics. They had given him ether and he was out on the day following. He is going fast now and a transfusion of blood is being made. A big sergeant who was wounded at the Somme volunteered to give his blood. They were lashing the sergeant's arm to the wall and the dying man was in a big sweat. I saw the man as he entered the ward. I bent over and saw the whole thing. 'God, but they do cut into the deep vein. For some reason neither man was anesthetized. The sinking man was too weak to care and possibly unconscious on account of his condition. But the beads of perspiration stood on the sergeant's forehead as he lay still as a stone, lashed to the man he was helping. I passed my hand over the poor fellow's brow to clear away the sweat and pain, and I said to him, 'Sergeant, where are you from in the States?' He answered, 'From North Carolina, sir.' And then I couldn't see the face of the brave man except in his eyes for the tears that stood in my eyes. 'There, colonel, was the clearest visualization that I will ever know of ideals of our great Lincoln: transfusion of blood between two men whose fathers, no doubt, fought differently and fought differently more than a half-century ago. It was a beautiful and heroic picture, and I thought of you do think of you often when I see these heroic things—and I see a great many. All that Homer ever wrote of fortitude and heroism seems so trivial and discounted if one sees and hears the things that happen here every day. 'This, indeed, must be the very climax of the age of manly and womanly courage. I say womanly because I do not forget these nurses—God bless them! They seem to rally and swarm to the ramparts of life to keep back the 'rider on the pale horse.' There is no faltering or fainting among them. They keep their heads and a heroic zeal possesses them that is very grand and beautiful. Why should not the women of our country cast their votes as the men do?'"

"There, colonel, was the clearest visualization that I will ever know of ideals of our great Lincoln: transfusion of blood between two men whose fathers, no doubt, fought differently and fought differently more than a half-century ago. It was a beautiful and heroic picture, and I thought of you do think of you often when I see these heroic things—and I see a great many. ## JOBS FOR ALL WHEN EUROPE'S RECONSTRUCTION BEGINS

UNITED STATES IS BANKER, WORKSHOP, FOOD STORE FOR THE WORLD.

Estimated wealth of United States.....\$225,000,000,000  
Number of workers in United States.....15,500,000  
Agriculture (1914).....15,500,000  
Machinery shops, iron industry, factories and transportation.....8,265,426

(By J. H. Duckworth, N. E. A.)  
Jobs for all will be had for the asking in the period of the world's reconstruction. There's to be no slump in the demand for labor. It has been estimated that no fewer than 10,000,000 men have been killed in Europe. The United States, which has not lost 15,000 men, must make good this huge labor loss. Devastated Europe will look to the United States for help to rebuild. We must finance this big job and supply the materials and tools.

According to M. Tardieu, French high commissioner, it will take two years to get the French coal mines in working order and ten years to put them in pre-war condition. To reconstruct private homes alone will require the work of 100,000 men for twenty years.

Belgium's Losses \$4,000,000,000. Prof. Van den Ven, of Louvain, now in the United States, says the war losses of Belgium total approximately \$4,000,000,000. Before the drive more than 45,000 buildings had been destroyed. Practically all the important factories have been robbed of their machinery, and, in many cases, not only the walls raised but the very foundations destroyed. The machinery was shipped to Germany. Towns and villages have been wrecked. Farms have been robbed of all live stock. Mills of interurban railroads have been torn up and shipped to Germany.

The problem is first to keep alive the population released by Germany; second, to reconstruct the industrial machine so the people can make a living. England also will want food, manufactured goods, raw material and machinery in great quantities. So will Italy and the Scandinavian countries.

George E. Roberts of the National City Bank, maintains that the United States will pass out of the war period with more wealth than she possessed before the conflict began. There has been much scientific development of industry, and agriculture has been stimulated as never before.

Readjustment Only Obstacle. There is no obstacle, he thinks, to a continuance of business activity except the difficulty of readjusting business to a peace basis. This obstacle is great but surmountable. The extent, too, to which our normal exports have been curtailed by the war has not been realized. Gov-

ernment figures for the nine months ending with September show that of the twenty-seven principal countries with which the United States does business, exports to fourteen fell off. This is explained by the fact that our factories have concentrated on war work, our shipping has been used for war use and neutrals, and that even our allies, dependent upon us for goods, have had to go on short rations.

This means that as soon as war releases shipping and men, this unfulfilled demand from allies and neutrals can be met and a vast new export business developed.

## How To Avoid INFLUENZA

Nothing you can do will so effectively protect you against the influenza or Grippe epidemic as keeping your organs of digestion and elimination active and your system free from poisonous accumulations. Doctors and health authorities everywhere are warning people of the danger of constipation, and advising, and urging everyone to see that the bowels and other eliminative organs act freely and regularly.

Ordinary laxatives, purges and cathartics, salts, oils, calomel and the like, are good enough to clean out the system, but do not strengthen the weakened organs; they do not build up vitality. Why don't you begin right today to overcome constipation and get your system in such shape that you can feel reasonably sure of resisting disease. You can do so if you will just get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a while. NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs, promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR Tablet will keep your body in condition and you can always feel your best. Bold and recommended by druggists.
